Who is CELTA for?

Trainees from a wide range of backgrounds take the CELTA to satisfy different objectives.

Most trainees are people:

- Wanting to start a career in teaching English, in Canada or abroad
- Looking for a career change
- Wanting to obtain a formal qualification to match their teaching experience

Candidates for the course are usually over 20, with a university degree in progress or completed. The majority of trainees are native-speakers of English but non-native speakers may also qualify if they meet the required standards.

To be eligible for the CELTA, individuals must:

- be at least 20 years old
- have gained university entrance qualification
- have appropriate awareness and understanding of the structure and function of English, and
- have a command of spoken and written English that will enable them to undertake the course and prepare for teaching a range of levels

Why CELTA?

It's simple – there's only one CELTA. No other TESL/TESOL/TEFL teaching qualification has the same degree of international recognition and acceptance as the CELTA.

Wherever trainees take the CELTA, course content and standards are the same. This allows potential employers worldwide to be confident that CELTA graduates can perform at the desired level in the classroom. For this reason, your CELTA certificate opens doors to greater employment opportunities both at home and abroad.

CELTA = Employer Recognition and Confidence = Job Offers

CELTA courses are designed to give you a solid grounding in both the theoretical and practical aspects of teaching English. With class size limited to a maximum of six candidates per trainer, you have lots of opportunity for attention focused on your needs as a trainee.

CELTA gets you started on the right path. After completing your CELTA, you will feel competent to walk into a class, knowing you have solid awareness of both the theoretical and practical aspects of teaching English as a second/foreign language.

Course Features

The full-time, 4-week CELTA course:

- Is intensive and requires a full-time commitment
- Involves a minimum of 120 hours with additional time required for preparation and assignments
- Follows the Cambridge CELTA syllabus and provides practical and professional awareness of learners, language, methodology and materials

CELTA Course Content

The CELTA involves lectures, workshops, teaching practice, observations, and other assignments.

One of the key distinguishing features of CELTA is the **supervised teaching practice component (TP)**. In the eyes of many employers, it is this element that makes the CELTA such a valuable certificate.

Employment Opportunities with the CELTA

Having a CELTA certificate, along with a university degree, is your guarantee for employment worldwide. It is highly regarded in all countries and in some countries it is the standard qualification for employment as an English language teacher.

CELTA graduates find jobs in private language schools in Canada and abroad, at colleges and universities, at international elementary and secondary schools, doing in-house corporate English lessons, with humanitarian organizations involved in overseas projects and with such reputable agencies as the JET (Japan Exchange and Teaching) programme.

For information on recognition of teaching certificates generally in Canada, visit the TESL Canada site at www.tesl.ca. For recognition of teaching certificates in Ontario, visit the TESL Ontario site at www.teslontario.com.

Here a couple of important points about job opportunities with a CELTA:

- If you do not possess a completed university degree, even with a CELTA, you will not qualify for employment at any of the Canadian language institutes, either public or private, that are members of Languages Canada – you may qualify for employment with private language schools that are not members of Languages Canada
- With a university degree and a CELTA, you will not normally qualify for employment with public-sector institutions that require their teachers to have TESL Ontario certification – such institutions generally receive government funding or provide LINC training
